KEY FEATURES

COOKING GRILL

As the coals die down, insert the grill rack & cook get cooking! Two levels of rack placement along with moving coals allow you to get just the right heat to cooking anything from mushroom to meat!

INSERTABLE FIRE TRAY

With integrated heat reflector ensures heat is pushed back out the front of the fire while smoke heads up the chimney!

Being removeable allows for easy cleaning & removal of accumulated ash.

ABOUT CORTEN STEEL

Corten is the popular name used to describe 'weathering steel', a group of steel alloys which remove the need for painting. It develops a surface layer of rust that self protects.

Originally developed by US Steel in the 1930's to build railroad coal wagons & widely used today in construction & manufacturing industries due to its high tensile strength, rustic appearance & corrosion resistance. Ideal for your new outdoor fire!

PRICING

Chimney Cap: \$420

Fireplace: \$4,480
